

Using native plants to provide natural ecosystem functions in a conservation fish hatchery	216
Ross Coleman, Alison M Hutson, Louie A Toya, and Douglas Tave	

The Pop Test: a quick aid to estimate seed quality	227
Derek J Tilley, Dan Ogle, and Brent Cornforth	

REFEREED RESEARCH	
Soil seedbanks and long-term seed survival in the endangered Florida beach clustervine (<i>Jacquemontia reclinata</i> House [Convolvulaceae])	233
John B Pascarella, Joyce Maschinski, and Samuel J Wright	

REFEREED RESEARCH	
Effects of seed source and pre-planting treatment on emergence of <i>Juniperus scopulorum</i> Sarg. in a Great Plains nursery	241
Pamela K Tauer, Rodney E Will, and J David Porterfield	

GERMPLASM RELEASE	
Notice of release of Majestic Germplasm and Spectrum Germplasm western prairie clover: selected class of natural germplasm	249
Douglas A Johnson, B Shaun Bushman, Kishor Bhattarai, and Kevin J Connors	

GERMPLASM RELEASE	
Notice of release of Prairie Harvest Germplasm common hackberry: selected class of natural germplasm	257
Dwight A Tober, Wayne L Duckwitz, and Nancy K Jensen	

REFEREED RESEARCH	
Effect of fungicide on Wyoming big sagebrush seed germination	263
Robert D Cox, Lance H Kosberg, Nancy L Shaw, and Stuart P Hardegree	

PAPERS PRESENTED AT THE FIFTH
NATIVE PLANT CONFERENCE

Monitoring roadside revegetation projects	269
David Steinfeld, John Kern, Gregory Gallant, and Scott Riley	

Unknown and unprotected: the imperiled genetic resource of native plant populations on roadsides and private lands	276
Lynda Boyer	

Connecting growers and sharing knowledge: building a nursery network in California’s central coast region	285
W Douglas Serrill	

REFEREED RESEARCH	
Conservation and reintroduction of the endangered Willamette daisy: effects of population size on seed viability and the influence of local adaptation	289
Andrea S Thorpe and Thomas N Kaye
