"The completely revised editions of these outstanding guides to the fascinating plants of Colorado provide an improved means of identifying and learning about them. Based on decades of experience in the state and around the world, the authors offer unique insights and a sound basis for expanding our knowledge into the future."

—Peter H. Raven, President Emeritus,
Missouri Botanical Garden, St. Louis

The University Press of Colorado is a cooperative publishing enterprise supported, in part, by Adams State College, Colorado State University, Fort Lewis College, Metropolitan State College of Denver, University of Colorado, University of Northern Colorado, Utah State University & Western State College of Colorado.

Restore. Rebuild. Replenish.

The Proven Leader in Native Plant Propagation

With over 135 species of mitigation-quality plant materials, we are Florida's largest grower of native grasses, shrubs, trees and coastal plant species. Our experience extends from projects for private corporations to local, state and federal government initiatives encompassing large habitat and restoration service sites.

APF is unmatched in contract-growing capacity, volume and scalability.

Contact us today to see how we can work together in a cost-effective, high-quality, compliant manner or to schedule a no-obligation site evaluation.

Initial Application

Plant Maintenance

**When irrigation is impractical,
DriWater® can help.**

Ideal for soil erosion projects & post-fire rehab

DriWater time release water gel is an innovative approach to remote planting irrigation and long-term watering. A non-polymer that supplies plants with water for up to 90 days. Safe, 100% degradable, consisting of 98% potable water and 2% food grade ingredients.

- Increases rooting up to 190%*
- Establishes trees in one growing season*
- Reusable, low profile, Tube and Gel packs for areas of high visibility
- Prolongs time between watering
- Non Polymer: does not compete for moisture
- Reduces transplant shock
- Supplies plants moisture at the root
- Avoids topical moisture reducing pests & weeds

Water where you need it.
