Plant Maintenance

**When irrigation is impractical,
DriWater® can help.**

Ideal for soil erosion projects & post-fire rehab

DriWater time release water gel is an innovative approach to remote planting irrigation and long-term watering. A non-polymer that supplies plants with water for up to 90 days. Safe, 100% degradable, consisting of 98% potable water and 2% food grade ingredients.

- Increases rooting up to 190%*
- Establishes trees in one growing season*
- Reusable, low profile, Tube and Gel packs for areas of high visibility
- Prolongs time between watering
- Non Polymer: does not compete for moisture
- Reduces transplant shock
- Supplies plants moisture at the root
- Avoids topical moisture reducing pests & weeds

Water where you need it.

NATIVE PLANTS OF NORTH AMERICA

Celebrating our
30th Year!

Proudly celebrating our 30th year, propagating genetically-diverse, bare-root native plants for the restoration community.

We grow over 500 species of trees, shrubs, perennials, bulbs, graminoids, rushes, and sedges from carefully cataloged seed lots.
