All papers undergo peer review.

Refereed research papers meet high scientific standards. General technical reports provide pragmatic information.

Authors are responsible for content and accuracy of their articles. All views and conclusions are those of the authors of the articles and not necessarily those of the editorial staff or the University of Wisconsin Press. Trade names are used for the information and convenience of the reader, and do not imply endorsement or preferential treatment by the University of Wisconsin or any other public agency. The University of Wisconsin is an equal opportunity and affirmative action employer and educational institution. *Native Plants Journal* publishes research involving pesticides, but such pesticides are not recommended. All uses of pesticides must be registered by appropriate state and/or federal agencies before they can be recommended. Pesticides can injure humans, domestic animals, desirable plants, and fish or other wildlife if improperly handled or applied. Read the pesticide label before purchasing, and use pesticides selectively and carefully. Follow label directions for disposal of surplus pesticides and pesticide containers.

CORRESPONDENCE

Manuscripts must be submitted via the Internet. See the first issue of each volume for complete author instructions or visit <http://npj.msubmit.net>. Address all subscription, business, back issue, bulk order, and advertising inquiries to:

University of Wisconsin Press Journals Division
1930 Monroe Street, 3rd Fl
Madison, WI 53711-2059 USA
608.263.0668 uwpress.wisc.edu/journals

SUBSCRIPTIONS

Subscription rates are:

Institutions
US\$ 192 print and electronic
US\$ 165 electronic only

Individuals
US\$ 68 print and electronic
US\$ 58 electronic only

Foreign postage is \$31.

PERMISSION TO REPRINT

No part of this publication may be reproduced, stored in a retrieval system, transmitted, or distributed, in any form, by any means electronic, mechanical, photographic, or otherwise, without the prior permission of the University of Wisconsin Press. For educational reprinting, please contact the Copyright Clearance Center (1.978.646.2600; 1.855.239.3415). For all other permissions, please contact permissions@uwpress.wisc.edu

PUBLISHING

Native Plants Journal is published 3 times each year (Apr, Aug, Dec) by the University of Wisconsin Press
ISSN 1522-8339 E-ISSN 1548-4785

Copyright © 2018 the Board of Regents of the University of Wisconsin System

The Native Plants Journal is designed to serve on-the-ground professionals whose responsibilities include working with native plant species for purposes of conservation, revegetation, propagation, landscaping, and related tasks. Included in the journal are articles that provide the latest concepts in native plant management and utilization. To facilitate this process, each year the summer issue of the journal contains a listing of vendors for native plant products. We work collaboratively with the Reforestation, Nurseries, and Genetics Resources (RNGR) group, which maintains an online national database of nursery and seed suppliers that support the propagation of forest and native plant materials. In this issue, more than 1000 native plant vendors are listed, and they cover a geographical area that includes nearly all regions of Canada and the United States. For those working on native plant projects, this valuable resource improves the chances of successfully completing research or utilitarian projects. The University of Wisconsin Press Journals staff and Candace Akins (NPJ Managing Editor) do a wonderful job each year of preparing this Native Plant Materials Directory. Many thanks to the team for the hours of work committed to this service. I hope you find this information useful and will utilize the directory in planning your native plant projects each year.

Stephen Love
Editor-in-Chief
