REFEREED RESEARCH

Evaluating the use of woody debris to enhance native plant establishment from seeds on legacy coal mines in West Virginia (USA) 272
Anna M Branduzzi, Christopher D Barton, Carol C Baskin, and Allison G Davis

Cutting propagation of 4 Florida native taxa of wild coffee (Psychotria spp.) 288
Teagan H Young, Sandra B Wilson, Mack Thetford, and James Colee

Seedling emergence and seed production of curlycup gumweed 299
Derek Tilley, Mary Wolf, Derek Jolley, and Gordon Hirning

PROPAGATION PROTOCOL

Germination and propagation of Lithospermum canescens (Michx.) Lehm., a difficult-to-grow prairie species 309
David Sollenberger, Cathy Thomas, and Louise Egerton-Warburton

GENERAL TECHNICAL

Hypernatural Piedmont prairies: a screening process for optimum placement 324
Sean Dunlap, Brad Davis, and Jon Calabria

Propagation for commercial production of sweet acacia (Vachellia farnesiana): a native plant with ornamental potential 337
Thomas P Smith IV, Sandra B Wilson, S Christopher Marble, and JianJian Xu

Restoration of a calcareous river floodplain in southwestern Montana, part 2: presentation of monitoring data 349
Tara Luna
