All papers undergo peer review.

See Author Guidelines for details on types of manuscripts.

Authors are responsible for content and accuracy of their articles. All views and conclusions are those of the authors of the articles and not necessarily those of the editorial staff or the University of Wisconsin Press. Trade names are used for the information and convenience of the reader, and do not imply endorsement or preferential treatment by the University of Wisconsin or any other public agency. The University of Wisconsin is an equal opportunity and affirmative action employer and educational institution. Native Plants Journal publishes research involving pesticides, but such pesticides are not recommended. All uses of pesticides must be registered by appropriate state and/or federal agencies before they can be recommended. Pesticides can injure humans, domestic animals, desirable plants, and fish or other wildlife if improperly handled or applied. Read the pesticide label before purchasing, and use pesticides selectively and carefully. Follow label directions for disposal of surplus pesticides and pesticide containers.

CORRESPONDENCE

Manuscripts must be submitted via the Internet. See the final pages of each issue for complete author instructions or visit <http://bit.ly/npjsubs>. Address all subscription, business, back issue, bulk order, and advertising inquiries to:

University of Wisconsin Press Journals Division
728 State Street, Suite 443
Madison, WI 53706-1418 USA
608.263.0668 uwpress.wisc.edu/journals

SUBSCRIPTIONS

Subscription rates are:

Institutions
US\$ 216 print and electronic
US\$ 184 electronic only

Individuals
US\$ 76 print and electronic
US\$ 65 electronic only

Foreign postage is \$31.

PERMISSION TO REPRINT

No part of this publication may be reproduced, stored in a retrieval system, transmitted, or distributed, in any form, by any means electronic, mechanical, photographic, or otherwise, without the prior permission of the University of Wisconsin Press. For the past eight years I have served as Editor-in-Chief of the Native Plants Journal. Although these have been professionally rewarding years, it has been a time filled with much personal struggle. In 2016, I suffered a massive heart attack while on a native plant collection foray in the Frank Church Wilderness in central Idaho. This was a life-changing event. Survival was far from guaranteed. Recovery was slow and agonizing. For six years, I lived with a battery-powered artificial heart system. Then, last year, I was given the gift of a heart transplant. I am still in the early stages of recovery from that traumatic surgery.

During this time of trial, I needed focus that could give me a reason to keep moving forward through life. My family gave me much purpose to fight for survival and recovery. My personal research and teaching tasks at the University of Idaho also kept me engaged. The Native Plants Journal played a key role in my recovery process. It demanded its own time and commitment and forced me to look beyond my own personal challenges. I could easily have resigned from my duties, but individual allegiance to the goals and mission of the journal gave me the desire to remain involved. In a very real sense, the journal helped me overcome my medical deficiencies.

In June of this year, I plan to retire from the faculty of the University of Idaho. In conjunction with this event, I will resign my position as NPJ Editor-in-Chief. Although necessary to allow me to meet future life goals, separation from the journal editorial board will be a cheerless occasion. NPJ is a unique and wonderful publication, with a mission to serve conservation practitioners in a way no other journal can. I have immensely benefited from my association with the journal and its publication staff in more ways than I can count. I love this journal and the people who make it possible.

Dr Stephen L Love
Editor-in-Chief
