PAPERS PRESENTED AT THE 3RD PACIFIC NORTHWEST NATIVE PLANT CONFERENCE

Restoration of native plants on Catalina Island, California 4
W Douglas Serrill

Seed quality testing of native species 15
Sabry Elias, Adriel Garay, Lee Schweitzer, and Sherry Hanning

Control of knotweed and other invasive species and experiences restoring native species in the Pacific Northwest US 20
Roberta Davenport

Moss propagation in Glacier National Park's Native Plant Nursery 27
Stacy McDonough

Understanding cultural reasons for the increase in both restoration efforts and gardening with native plants 31
Linda R McMahan

REFEREED RESEARCH

Native grass seeding and forb planting establishment in a degraded oak savanna plant community in the Coast Range foothills of western Oregon 35
Nan Vance, Andrew Neill, and Frank Morton

Seed production protocols for *Anaphalis margaritacea*, *Eriophyllum lanatum*, and *Eriogonum umbellatum* 47
Colleen Archibald

Propagating native Salicaceae for riparian restoration on the Hopi Reservation in Arizona 52
Thomas D Landis, David R Dreesen, Jeremy R Pinto, and R Kasten Dumroese

REFEREED RESEARCH

Seeding rate affects establishment of native perennial legumes in the upper midwestern US 61
Jason A Fischbach, Nancy J Ehlke, Paul R Peterson, Donald L Wyse, Douglas R Swanson, and Craig C Sheaffer

Successful 1-y storage of swamp white oak acorns 69
Gregory Hoss

REFEREED RESEARCH

Genetic fingerprinting of goldenseal (*Hydrastis canadensis* L. [Ranunculaceae]) using AFLP markers 73
Suping Zhou and Roger J Sauvé

Planting longleaf pine at wide spacings 79
David B South

Propagation protocol for the endangered crenulate lead plant, *Amorpha herbacea* var. *crenulata* 89
Julissa Roncal, Jack Fisher, Meghan QN Fellows, Kristie Wendelberger, Joyce Maschinski, and Matthew W Fidelibus

REFEREED RESEARCH

Comparison of methods for seeding Nebraska sedge (*Carex nebrascensis*) and Baltic rush (*Juncus balticus*) 95
Derek J Tilley and J Chris Hoag

The pot planter: a new attachment for the Waterjet Stinger 100
J Chris Hoag

BOOK REVIEW

Poisonous plants: a handbook for doctors, pharmacists, toxicologists, biologists, and veterinarians 102

MEETINGS AND OPPORTUNITIES 104
